intelli-smart parts kits

for CM402A, B & C series machines

Intelli-smart parts kits - a new advent from Panasonic.

We've taken the guesswork out of determining which parts are best kept on-hand to optimize contiguous productivity.

These kits are dynamic with the number of machines installed and can be used to immediately suffice an in-process warranty claim.

What's more, there's only one part number to order.

Now, that's easy.

Part Numbers for intelli-smart parts kits based on model number and machine quantity:

CM402A 1-3partskit }
CM402B 1-3partskit } For installations with 1-3 machines
CM402C 1-3partskit }

CM402A 4-9partskit }
CM402B 4-9partskit } For installations with 4-9 machines
CM402C 4-9partskit }

CM402A 10+partskit }
CM402B 10+partskit } For installations with >10 machines
CM402C 10+partskit }
